

Kirby Marine Security Policy

Kirby is committed to the security of our personnel, towing vessels, barges, facilities, and the environment in which we operate.

In accordance with the Maritime Transportation Security Act of 2002, Kirby complies with the USCG security regulations covering Kirby vessels, barges, and facilities.

Vessel Security Plans, which implement the American Waterways Operators Alternative Security Program, provide the security measures for Kirby vessel operations.

Facility Security Plans, which carry out 33 CFR 105, provide the security measures for Kirby's facility operations.

These procedures are in place to detect, deter, delay, and defend against acts of terrorism against Kirby operations.
